

Rustic Taps and Catering was established in 2017. Dave and Jessica Golden thought this service was needed out of necessity as every great gathering should offer local craft beer with great food. Rustic Taps & Catering provides more than just mobile bartending services, they feature a restored 1954 Chevy pickup truck customized with a cold enclosure using cold plate technology with 10 beer taps that can transport 50 kegs. In addition to an amazing bar service, they feature a full bar, wine bar, mimosa bar, along with an array of catering services. Rustic Taps and Catering believes that all the little details come together to create an elegant, rustic appearance. They have built the resources needed to serve at small gatherings like a rehearsal dinner to outdoor festival or concerts. From your favorite brewery to your front door RTC can deliver the rustic elegance every event deserves!
