

## Burnham's Trucking

Specializing in Auto Transport  
207-776-3051

Mark has driven a tractor trailer since he could reach the pedals, but it was when Mark found a freightliner sitting in undriveable condition that the fire was really lit. The truck was sitting for nearly 8 years until Mark rebuilt it and Burnham's Trucking came to fruition. Mark and Michelle became owner-operators, bought two more trucks and two trailers. They serve "snowbirds" by transporting their vehicles between seasonal locales and also maintain relationships with brokers, dealerships, and auction buyers.
