# Small Business Spotlight

The Village Woodworker was founded in Falmouth nearly 65 years ago and is known for their unique designs and quality artisanship. Robert Roakes was taught woodworking by his father and perfected his handcrafted hardwood stool design through the years. He has worked with and mentored his son-in-law Brian Warren for the last ten years and has passed down his skills and legacy. As the third-generation owner of The Village Woodworker, Brian takes pride in his unique craftsmanship and quality products. This custom fit furniture is created to meet your household needs with a unique design that is crafted for comfort and many years to come.
